About the wiki

We are not directly connected with the developers of the **DroidScript JavaScript programming IDE for Android**.

We are a collaborative community website about DroidScript that anyone, including you, can edit. Click the pencil icon at the right of any page to get started!

So what is DroidScript?

DroidScript (was AndroidScript) is a free Android app that allows us to write genuine Android apps in JavaScript.

What is on this wiki?

The best place to start looking to see what is on the wiki so far is the top right of your browser window. The [Sitemap](#) and the **Search box** are your friends.
